STUDENTS APPLYING TO PRIVATE AND OUT-OF-STATE UNIVERSITIES:

Utah Bridge Program credits are part of the Utah System of Higher Education, where Utah's six public universities accept all Bridge Program credits in language degree pathways.

For students who plan to attend a university outside of the Utah System of Education (a private university or a university out of state):

1. Placement in university courses depends largely on your language proficiency level. **The more advanced level Bridge Program language courses you take in high school, the better your opportunity will be to increase your language skills. Conversely, if you stop taking language courses in high school and do not continue to build your language skills, it can be difficult to demonstrate your highest language proficiency level when you arrive on campus.**
2. **Submit your Bridge Program course syllabi to the Department of Languages at the university you will attend.** Private and out of state universities typically have a process where they review the course content and look for a possible match with their institution's unique courses.
3. **Request the opportunity to take a placement test after high school graduation to demonstrate your language skills.**
4. Note that DLI and Bridge Program are both unique language pathways in the U.S.. College Board and most universities build AP credit equivalencies around a grade 7-12 "World Language" student and program, and do not take into account immersion or language development after or beyond the AP year. **Do submit your AP score to the university, however Bridge students should not rely solely on AP score for credit equivalency**, since they have studied up to 3 years beyond the AP course year, allowing them to progress past the level obtained in grade 9 or 10. Please contact the Utah Bridge Program if you have questions or would like support.

1. If a student has taken all (3) Bridge courses and received B- or better, they are exempt from having to take the (3) required upper-division courses for a BYU Language Certificate* and can go straight to taking the proficiency assessments, making them eligible for a Language Certificate in their first semester at BYU *if* they achieve a minimum proficiency rating of Advanced Low on one of the assessments.
2. Bridge courses *may* transfer to BYU using regular application for transfer credit procedures. Each language department will determine whether or not a Bridge course aligns with their curriculum and if they will accept it for credit. For example, the Spanish Department has determined that Bridge course Spanish 3118 will transfer to BYU as credit for SPAN 339.

*A BYU Language Certificate is an award students can receive after having completed upper-division coursework and achieving a minimum proficiency rating in an eligible language. The student receives an official notation on their BYU transcript as well as official certificates from ACTFL (American Council on the Teaching of Foreign Languages) certifying their language proficiency. It is the only program of its kind offered at a US University.
