1. Bridge courses *may* transfer to BYU using regular application for transfer credit procedures. Each language department will determine whether or not a Bridge course aligns with their curriculum and if they will accept it for credit. For example, the Spanish Department has determined that Bridge course Spanish 3118 will transfer to BYU as credit for SPAN 339. As Spanish is the first language with Bridge course students entering in Fall 2019, no other language department has determined any Bridge course/transfer credits at this time.
2. If a student has taken all (3) Bridge courses and received B- or better, they are exempt from having to take the (3) required upper-division courses for a BYU Language Certificate\* and can go straight to taking the proficiency assessments, making them eligible for a Language Certificate in their first semester at BYU *if* they achieve a minimum proficiency rating of Advanced Low on one of the assessments.

\*A BYU Language Certificate is an award students can receive after having completed upper-division coursework and achieving a minimum proficiency rating in an eligible language. The student receives an official notation on their BYU transcript as well as official certificates from ACTFL (American Council on the Teaching of Foreign Languages) certifying their language proficiency. It is the only program of its kind offered at a US University.
